Brahma Kumaris always consider me as one of their Members of the Family which is a great boon to me. 10 acres of land is allotted to them and I am of great conviction that within no time this place will transform into a Wonderful Learning and Experiencing Place with focus on developing the mind and its powers. He hoped that this retreat centre would assume international recognition as one of the peace giving centres in the world. Apart from teaching meditation and spiritual empowerment, this centre will also help in Youth Development, Women Development, Relief from Depression, Positive Attitude

Development, Soft Skills, Managerial Skills, Mind Management Techniques, Life Management Skills, Stress Free Living, Harmony in Relations, Leadership Skills. Brahma Kumaris is the only organization that is working to development all sections of the society – Policy Makers and Ministers, CEOs of big and small companies, Judiciary etc. I am requesting Dadi Ji, to make this retreat centre at Amaravati as their best centre in the world. It is not a building to be created but an environment that spreads wisdom to the entire world. We are witnessing a large emergence of schools, hospitals etc. but the most important thing that we need now is spirituality. I feel proud to have the campus of Brahma Kumaris here as Brahma Kumaris are leaders in spirituality. We have police for law and order, but when I see Brahma Kumaris, I see a White Police creating peace and happiness in the society. Police is not needed wherever they are. I request all of you to imbibe the teachings of Brahma Kumaris to make your lives happy and meaningful. I thank Dadi Ji for gracing this programme.
